DELAWARE STATE SENATE
153rd GENERAL ASSEMBLY

SENATE CONCURRENT RESOLUTION NO. 141

DESIGNATING THE MONTH OF FEBRUARY 2026 AS “TURNER SYNDROME AWARENESS MONTH” IN THE
STATE OF DELAWARE.

1 WHEREAS, Turner Syndrome is a random chromosomal disorder that exclusively affects females in which an
2 individual has a missing or incomplete X chromosome; and

3 WHEREAS, the cause of Turner Syndrome is still unknown; and

4 WHEREAS, according to the Turner Syndrome Foundation, Turner Syndrome is the second-most common genetic
5 disorder and affects 1 in every 2,000 females; and

6 WHEREAS, babies are not routinely screened for Turner Syndrome at birth, and many infants do not have
7 identifying characteristics, meaning that more than 50% of babies with Turner Syndrome are diagnosed later in life; and

8 WHEREAS, individuals with Turner Syndrome may face numerous lifelong physical, cognitive, emotional, and
9 social complications, including, cardiovascular disease, learning disabilities, and increased risk for ovarian failure, Type II
10 diabetes, and hypothyroidism; and

11 WHEREAS, these complications may be mitigated with early diagnosis and treatment.

12 NOW, THEREFORE:

13 BE IT RESOLVED by the Senate of the 153rd General Assembly of the State of Delaware, the House of
14 Representatives concurring therein, that the General Assembly affirms the importance of awareness of Turner Syndrome to
15 ensure effective screening and treatment, and hereby designates February 2026 as “Turner Syndrome Awareness Month” in
16 the State of Delaware.

SYNOPSIS

This concurrent resolution designates February 2026 as “Turner Syndrome Awareness Month” in the State of Delaware.
