DELAWARE STATE SENATE
153rd GENERAL ASSEMBLY

SENATE CONCURRENT RESOLUTION NO. 128

RECOGNIZING JANUARY 2026 AS “NATIONAL BLOOD DONOR MONTH” IN THE STATE OF DELAWARE.

1 WHEREAS, more than 50 years ago, January was designated as National Blood Donor Month (NBDM), as an
2 annual observance meant to honor voluntary blood donors and encourage more people to donate blood at a time when blood
3 supplies are historically low; and

4 WHEREAS, Blood Bank of Delmarva (BBD) has been serving the community with the collection and distribution
5 of lifesaving blood and blood products to patients in our local hospitals for more than 70 years; and

6 WHEREAS, in our communities the need for a diverse blood supply is constant, but the supply is not; making
7 volunteer blood donors the foundation for ensuring a safe and stable supply of blood products is available to help meet the
8 medical needs of patients nationwide; and

9 WHEREAS, a blood transfusion occurs in the U.S. every 2 seconds but only 3% of the eligible population actually
10 donate blood, bringing about chronic blood shortages nationwide which have exposed the vulnerability of our nation's
11 blood supply and revealed its need to be included in emergency preparedness plans; and

12 WHEREAS, O- is the universal blood type, represented by just 6% of the population, and often used in trauma
13 situations; making it the most needed blood type and most likely to be in short supply when there is a blood emergency; and

14 WHEREAS, low-titer O-positive blood, which is universally compatible in trauma settings, is carried by the
15 Delaware State Police Aviation Unit, New Castle County EMS, Kent County EMS, and Sussex County EMS, enabling
16 lifesaving transfusions before patients arrive at the hospital and significantly improving survival outcomes; and

17 WHEREAS, patients requiring blood transfusions include cancer patients, accident, burn, or trauma victims,
18 newborn babies and their mothers, transplant recipients, surgery patients, chronically transfused patients suffering from
19 sickle cell disease or thalassemia, and many more.

20 NOW, THEREFORE:

21 BE IT RESOLVED by the Senate of the 153rd General Assembly of the State of Delaware, the House of
22 Representatives concurring therein, that the month of January 2026 is designated as “National Blood Donor Month” in the

23 State of Delaware. We hereby urge all citizens to celebrate the cause of blood donation and recognize volunteer blood
24 donors for their generous gifts. We further urge all eligible blood donors to donate regularly, and encourage businesses and
25 organizations throughout the State of Delaware to sponsor community-based blood drives with Blood Bank of Delmarva,
26 among other blood collection institutions, and provide citizens of our State with the opportunity to give the gift of life.

SYNOPSIS

This resolution recognizes January 2026 as “National Blood Donor Month” in the State of Delaware.
